Testimonial

We know we get response from your book as it had come out prior to the competition's.

Bringing buyers
and sellers together
anytime, anywhere.

"My Air Conditioner Isn't Cooling"

If your air conditioner quits, ***Don't Panic***. We have most systems repaired in less than three hours from the time our customers call. This is possible because we're open 24 hours a day 365 days a year. And, you only pay a low **FLAT RATE** for repairs. You never pay for extra labour, or to locate hard-to-find parts. Best of all, we don't consider your unit fixed until it's worked perfectly for six months. If the part we repaired fails under our guarantee, we'll fix it **FREE**.

Shouldn't you call ***BORDER*** now for an immediate appointment?

Dear Sir:

Just to drop a line to you to let you know how satisfied our firm has been in using your services. The professionalism and knowledge of your staff makes it quite simple for people like myself to understand a little about the advertising basics. We know we get response from your book as it had come out prior to the competition's. When we receive a phone call we usually ask where they found us and those that replied "In the Yellow Pages" told us that your book is being used.

Thank you for helping us to grow our business.

Yours truly,
Border Plumbing and Heating

Joe Gerolami
Owner/Manager

P.S. We like the pricing too.
