Testimonial

We know for a fact that we have received calls out of your directory because we have had people mention that they are looking at our ad in Info-Tel and had mentioned things they liked in our ad.

Vernon, BC V1T 6N6

Attn: Rick Le Blanc

We have been advertising in the Info-Tel directory for about 8 years. We were skeptical at first about the book, however in our business it's very important to be in the directories.

We know for a fact that we have received calls out of your directory because we have had people mention that they are looking at our ad in Info-Tel and had mentioned things they like about our ad.

We also know that we have received calls from Info-Tel because we used to advertise a Vernon phone number in our ad but decided to remove it due to the lack of personnel and equipment.

We put a lot thought into our advertising & we appreciate & expected the same from our ad reps. We enjoy the consistency of having the same sales rep and the care that Rick has shown and we know when we have our yearly visit it's more than just a business transaction. Thank You for the care you have show us throughout the years. We have been very impressed with the advice and service we have received.

Sincerely

Mike and Vickie Dickson
