

Testimonial

Last year was the first year that I decided to go into info-Tel and I can say that I have noticed a very noticeable increase in my business than in years prior. I also noticed that I started getting calls from areas that Info-Tel covers that I normally receive very little to no work. Since your price and results have given me something to compare YPG to, I have increased my program with you and drastically reduced my program with them. I like to see the extra added value that Info-tel provides though your online services at no addition charge.

Serving the North Okanagan to Revelstoke
Telephone: 250-549-1877
